SEA-DOO | 

SEA-DOO: FOR EVERYONE WHO DREAMS OF FUN ON THE WATER

Say hello to the new Sea-Doo Spark, our latest breakthrough watercraft. It makes your family's dream of great days on the water possible right now.

The Sea-Doo Spark has been designed to fit your lifestyle. It is the most affordable watercraft you can buy¹, is easy to own, easy to tow thanks to its compact size and light weight, and an absolute blast to ride. Plus, it comes in a variety of colours and customization options, so you can flash some personality and make it your own.

This watercraft continues the Sea-Doo tradition of accessibility, innovation and technology. In our lineup, every rider can find a watercraft ideal for what they want. Sea-Doo offers industry exclusives like the Intelligent Brake and Reverse (iBR™) system—the world's only on-water braking system. It's just one of the proven features that our riders have enjoyed for years.

So turn the page, read about everything this lineup offers and find out why Sea-Doo is the world's favourite watercraft.

DISCOVER THE SEA-DOO DIFFERENCE.

Sea-Doo is the world's favourite watercraft. Ride one and you'll see why. Our exclusive technologies give you great days on the water that no one else can offer. Sea-Doo watercraft deliver fun, control and peace of mind on the water.

MORE ACCESSIBLE THAN EVER

Like never before, Sea-Doo offers the easiest way to be on the water. With the new, affordable Sea-Doo Spark, your family can start riding a playful watercraft. Extremely light—nearly half the weight of other watercraft—it's easy to manoeuvre and also the most fuel-efficient watercraft¹ in the industry. Plus, its compact design makes it simple to tow behind many cars and store conveniently in your garage. A wide range of colours and customization options let you make it your own. Plus, you get exclusive technologies and design such as iBR or the new Rotax® ACE™ family of engines that make Sea-Doo Spark easy to ride and own. Only Sea-Doo could offer this much on such an affordable watercraft.

THE WORLD'S ONLY ON-WATER BRAKE

For five years now, Sea-Doo is the only watercraft that comes with an on-water brake.² Our exclusive Intelligent Brake and Reverse (iBR) system helps riders stop up to 30 m [100 ft.] sooner on the water.³ Just squeeze the brake lever on the left side of the handlebar. And when the watercraft is stopped, squeeze the brake lever to go in reverse. It delivers more safety and effortless docking, increases your manoeuvrability and creates a more intuitive riding experience. And that has grabbed people's attention. Our braking system has been honoured by marine authorities around the world, including the U.S. Coast Guard for improving boating safety.

RELIABLE AND EASY TO OWN

Our proven reliability is one of the many reasons Sea-Doo owners recommend their brand more than any other brand in the industry.⁴ In fact, 87% of the Sea-Doo watercraft purchased over the last 10 years remain in use today.⁵ And Sea-Doo watercraft can run longer with less maintenance than ever before. Go one year or 50 hours of use before your first oil change, and after that you'll only need one every 12 months.

¹Based on BRP internal testing. Testing of competitive models in identical conditions. /
²Available on select models. / ³Based on BRP internal testing. Traveling at 80,47 km/h [50 mph]. /

LUXURY

Highest level of luxury, comfort and technologies for optimum convenience and style.

IF A LUXURY WATERCRAFT IS FOR YOU, START ON PAGE 30.

INNOVATION THAT DRIVES THE INDUSTRY FORWARD.

Sea-Doo gives you more standard features for your money. That means more peace of mind, comfort and performance. You get technologies like the world's only on-water brake, the only suspension system on any watercraft and specific riding modes for specific conditions. Our technologies help novice riders pick up the sport quicker and turn professionals into champions.

These Sea-Doo exclusive technologies are available as indicated on models throughout this brochure.

PRECISION RIDING THAT MAKES A DIFFERENCE.

iTC

Intuitive Intelligent Throttle Control (iTC™) technologies offer a host of benefits. For example, only Sea-Doo watercraft start in neutral. So you get safer dockside starts and easy, stress-free manoeuvrability. And because the throttle responds to an electric signal instead of a cable, the engine is more precisely calibrated and delivers better fuel economy and a lower operating cost.

ECO MODE

Our exclusive ECO™ mode on Sea-Doo watercraft produces up to 46% improved fuel efficiency.¹ You can ride longer and spend less while doing it—yet another way Sea-Doo gives you tremendous value.

CRUISE CONTROL

Activity-specific cruise control lets you set your speed for cruising, tow sports, navigating no-wake zones and more.

SKI MODE

Improves anyone's driving of the watercraft and helps make every rider an expert in no time. Choose from 5 personalized acceleration profiles for a perfect launch and a consistent pace during every ride.

TOURING/SPORT MODE

Choose from different throttle responses to suit your riding style with just the touch of a button.

ONLY SEA-DOO OFFERS EXCLUSIVE ON-WATER BRAKING AND SUSPENSION.

iS aS S

Exclusive to Sea-Doo is the first true suspension system on a watercraft. Go for longer rides in comfort. You can be confident with our S suspension (S), Adjustable Suspension (aS) and Intelligent Suspension (iS) systems that rougher conditions won't stop a great day on the water.

GROUNDBREAKING, FUEL-EFFICIENT ENGINES THAT LAST.

ROTAX®

Each Sea-Doo watercraft is powered by a legendary BRP ROTAX engine specifically designed for marine use with quicker acceleration and higher top-end speed. And we're proud to debut the new Rotax ACE 900 and ACE 900 HO engines on the Sea Doo . The most compact and lightweight engines on the market,² they've helped us build the most fuel-efficient watercraft in the industry. These engines helped us create watercraft with an excellent power-to-weight ratio and optimized power at all RPM levels.

CLCS

Sea-Doo watercraft keep the engine running at ideal temperatures with the industry's only Closed-Loop Cooling System (CLCS), which uses coolant and keeps out corrosive saltwater and debris that can cause damage. Its state-of-the-art technology used in cars and other modern engines, applied to watercraft for increased reliability and peace of mind.

STOP UP TO 30 M (100 FT.) SOONER WITH THE WORLD'S ONLY ON-WATER BRAKE.

iBR

Stop up to 30 m [100 ft.] sooner³ than any other watercraft with Intelligent Brake and Reverse (iBR). The world's only on-water brake lets you keep both hands on the handlebars, giving you maximum control. And iBR makes docking far easier than it's ever been.

30 m (100 ft.)

Sea-Doo vs. Competition

INNOVATIVE HULL TECHNOLOGY TO IMPROVE ANY RIDE.

S³ Hull shown

S³

The first and only one of its kind. The S³ Hull™ has a stepped design that reduces drag while staying glued to the water for a stable and consistent ride that also includes the benefit of improved fuel efficiency. It's also incredibly strong, thanks to its ribbed construction. This means you get better handling.

Available on the RXT, GTX and WAKE PRO models.

T³

Exclusive to the Sea-Doo RXP-X, the T³ Hull™ features a deep-V shape that cuts effortlessly through the water and allows you to lean in at a sharper angle. And it's complemented by the Ergolock™ system, which allows you to keep your hands, knees and feet locked in place to minimize fatigue and allow for greater cornering.

¹Based on BRP internal testing. Fuel consumption ranges per model and engine package. / ²Source: manufacturer's website. Runabout 4-stroke engines only. / ³Refer to disclaimer on p. 5.

ALL THAT **FUN** YOU'VE IMAGINED IS
NO LONGER JUST IN YOUR **IMAGINATION**

Spark 3up
Bubble Gum colouration shown

REC LITE

Living the dream of great days on the water is easier than you've ever thought. Meet the Sea-Doo Spark, a fun new way for your family to play on the water—and at a price that's accessible to you right now. This unique experience features a compact and lightweight design that makes it playful to ride and manoeuvre, simple to own and easy to tow. Plus, you can make it exactly the watercraft you want by choosing from a wide range of colours and customization options. There's nothing holding you back. With the new Sea-Doo Spark, your family's turn to join the fun has finally arrived

AN ENTIRELY NEW WAY TO HAVE FUN

Quite simply, you'll have more fun with Sea-Doo Spark. It's playful and easy to ride, thanks to its unique style and design, so everyone in your family will have a blast riding one. This watercraft delivers great days on the water like nothing else.

EASY TO OWN AND TOW

The Sea-Doo Spark is the most affordable watercraft you can buy¹. And it's the lightest watercraft on the market², making it the only one that can be towed by many popular compact sedans. Plus, Sea-Doo Spark is easier to fit in any garage.

EASY ON THE ENVIRONMENT

The Sea-Doo Spark is the most fuel-efficient watercraft available, thanks in large part to the new Rotax ACE 900 engine. This breakthrough engine technology, and its industry-best light weight, allows the Spark to produce up to 35% better fuel consumption than the closest competitive model³. And it's made with many recyclable components, which makes it, quite simply, greener than other watercraft.

FROM A PROVEN LEADER

Sea-Doo has demonstrated its leadership in the watercraft industry for more than 25 years. Sea-Doo was the first and only watercraft maker to offer an on-water braking system and suspension options—and it remains the only manufacturer offering these ride-enhancing features. Sea-Doo breakthroughs also include being the first with a 4-stroke engine and Closed-Loop Cooling System to protect a watercraft's engine for longer life. Sea-Doo Spark is the latest innovation from an established watercraft pioneer.

¹Source: Manufacturer's website. Prices vary according to product specification. / ²Source: Manufacturer's website. Runabout 4-stroke engines only. / ³Based on BRP internal testing. Testing of the closest 4-stroke competitive model done under identical conditions.

CREATE YOUR OWN SPARK

IN 6 SIMPLE STEPS

SELECT THE NUMBER OF PASSENGERS

Sea-Doo Spark 2up
(Capacity: 2 persons / 160 kg [350 lb.])

Sea-Doo Spark 3up
(Capacity: 3 persons / 205 kg [450 lb.])

PICK YOUR ENGINE

Rotax 900 ACE¹—The most fuel-efficient engine on the market². It uses just 7.3L³ [1.94 US gal.] of fuel per hour of use.

Rotax 900 HO ACE—A more powerful high-output engine with better acceleration and higher top speed that still uses only up to 9L³ [2.4 US gal.] per hour of use.

ADD THE ONLY ON-WATER BRAKE

With iBR⁴, the world's only on-water brake, you can stop up to 30 m (100 ft.) sooner than other watercraft. And it gives you added maneuverability and effortless docking.

ADD THE CONVENIENCE PACKAGE

Add popular optional items for Sea-Doo watercraft: an added Front Storage Bin Kit to store your personal belongings, plus a Sea-Doo Step for easy reboarding.

PICK YOUR COLOUR

Choose from Vanilla, Orange Crush, Bubble Gum, Pineapple or Licorice colourations to personalize your Sea-Doo Spark.

PERSONALIZE IT

Add one of our 20 custom Attitude Graphic Kits to make your Sea-Doo Spark even more distinctive. It's a unique customization option nobody else offers. And check out pages 16-17 to see just a sampling of the many Sea-Doo Spark-inspired accessories and clothing.

Sea-Doo MOVE trailer may not be available in your region.

Some images shown with optional accessories.

¹Featured exclusively on the Sea-Doo Spark 2up without Intelligent Brake and Reverse (iBR). / ²See page 5 for disclaimer. / ³Based on BRP internal testing. / ⁴Based on BRP internal testing; iBR is not available on the Spark 2up with the Rotax 900 ACE engine.

BUILD YOUR OWN SEA-DOO SPARK NOW AT SEA-DOO.COM.

GET THE GEAR THAT MAKES THE SEA-DOO SPARK YOUR VERY OWN.

A lineup of integrated accessories lets you customize your Sea-Doo Spark to fit the way you'll ride it. Relax and pop up the Chill Shade for a break on the water. And protect your investment with a snap-in fender and speed ties. For both on water and off, choose from a series of Spark-inspired riding gear and sportswear—PFDs, wetsuits, gloves, boardshorts, caps and hoodies—you name it. Sea-Doo offers a full range of sportswear for him and her. And every piece is an ideal fit for you, your new Spark and your life on the water.

RECREATION

These are versatile watercraft that are forgiving and provide good stability, even in moderate waters. They help you get your family onto the water easily with numerous standard features usually found on higher-priced models. Plus, ride with added peace of mind thanks to our exclusive on-water brake.¹ A terrific value that stands out from the crowd, the only problem you'll find will be deciding who gets to go first.

¹Available on most models.

GTI 130 model shown in Black & White

INTELLIGENT BRAKE AND REVERSE (IBR)
 Exclusive to Sea-Doo. Stop your watercraft with the squeeze of a lever—for more safety and effortless docking. (Available on GTI 130)

ECO MODE
 Automatically determines the most economical power delivery for the greatest fuel economy.

LEARNING KEY
 Limits speed for beginners. Programmable, based on level of experience.

GTS 130 / GTI 130

ITC / IBR / CLCS / ECO

VERSATILE AND FUN FOR THE WHOLE FAMILY. WITH A SURPRISINGLY FUN STICKER PRICE.

Fun, nimble and reliable watercraft that come with more standard features usually found on higher-priced models. Fuel efficient and available with a wide range of package options, you also get multiple operating modes to fit your riding preference.

COLOUR OPTIONS: Lucky Green Black & White (GTI 130 only)

STORAGE
 A large space (116.6L [30.8 US gal.]) lets you store plenty of gear.

OPTIONAL SNAP-IN FENDERS
 Protect your watercraft at the dock with these easy-to-use fenders.

ADDITIONAL COLOUR OPTION: LUCKY GREEN

GTI SE 130 shown in Lucky Green coloration.

INTELLIGENT BRAKE AND REVERSE (iBR)
 Exclusive to Sea-Doo. Stop your watercraft with the squeeze of a lever—for more safety and effortless docking.

REBOARDING STEP
 Makes it easy to get back on after having fun in the water.

VARIABLE TRIM SYSTEM (VTS)
 Adjust the nose angle of the watercraft higher (stability at high speeds) or lower (for towing and quick starts).

GTI SE 130 / 155

iTC / iBR / CLCS / ECO

THE MOST POPULAR FAMILY WATERCRAFT.

The GTI SE models come with numerous standard features that have made these watercraft the most popular for families looking for great days together on the water. Like a touring seat, VTS, reboarding step and more. Also, our exclusive Intelligent Brake and Reverse (iBR) system gives you the only watercraft with an on-water brake, which lets you ride with more confidence and control.

COLOUR OPTIONS: Lucky Green (GTI SE 130 only) Black & Sunshine

TOURING SEAT
 Plush, ergonomic design provides maximum comfort and support for driver and passenger.

OPTIONAL RETRACTABLE SKI PYLON
 Features spotter handgrips and rope storage.

ADDITIONAL COLOUR OPTION: BLACK & SUNSHINE

CRUISE CONTROL
An activity-specific cruise control lets you set your speed for cruising, tow sports, navigating a no-wake zone and more.

HIGH-PERFORMANCE VTS
Quickly accessed on the handlebar for fine-tuned handling based on rider preference, water conditions and number of passengers.

GTI LIMITED 155

MAXIMUM FAMILY FUN.

By upgrading to the Sea-Doo GTI Limited 155, you get exclusive features available only with our Limited package, including a unique, premium colouration. And you still get the exclusive Intelligent Brake and Reverse (iBR) system. This distinct watercraft gets you closer to unlimited family fun.

TOURING SEAT
Plush, ergonomic design provides maximum comfort and support for driver and passenger.

LIMITED PACKAGE
Custom cover, removable dry storage bag, safety kit and exclusive colouration. Other Limited features include time/distance to empty and high-performance VTS.

WAKE 155

WAKE PRO 215

TOW SPORTS

Made for those who can't imagine water without the sports. These are the only truly dedicated tow sport watercraft, and they deliver versatility that makes wakeskating, wakeboarding and tubing—you name it—as fun as possible. Loaded with essential exclusive features for these sports and designed with trendsetting details and style, the Sea-Doo WAKE watercraft are for riders seeking an edge—and then jumping off it.

3-POSITION SKI PYLON
Retractable so it stows away when not in use. Features spotter handgrips and rope storage.

REBOARDING STEP
Makes it easy to get back on after wakeskating or wakeboarding all day.

BOARD RACK
Comes standard. Removable; carries your board on the side to get to your favourite riding spot.

WAKE 155 / WAKE PRO 215

ITC / iBR / S³ / CLCS / ECO

MADE SPECIFICALLY FOR TOW SPORTS.

Both Sea-Doo WAKE models include a retractable ski pylon with a high tow point that keeps the rope out of the water. Plus, you get our exclusive Ski mode and a removable board rack. And to get even more from your tow sports, the WAKE Pro 215 offers a supercharged engine and our exclusive S³ Hull for added stability when towing wakeskaters and wakeboarders. Machines like these have made Sea-Doo the official partner of the Nike[®] Wakeskate Team.

¹On WAKE Pro 215 model only.

SKI MODE
This exclusive Sea-Doo feature makes any driver an expert in no time, with five acceleration profiles to get you going and moving just like the pros.

OPTIONAL DRY STORAGE BAG
Plenty of storage for stowing away your gear.

GTX LIMITED IS 260

GTX S 155

LUXURY

For those seeking the highest level of comfort, technology and performance—without compromises. These are larger watercraft, stylish, elegant and packed with quality features made for long rides in a variety of conditions. And you can tailor your experience just the way you like it with our industry-exclusive suspension options for stable and predictable performance. These are called Luxury watercraft, so you have certain expectations. We'd like to help you surpass them.

TILT STEERING
Fit it to your personal riding preference, so rider ergonomics work for you on the water.

CRUISE CONTROL
Set your speed for cruising, tow sports, navigating a no-wake zone and more.

INTELLIGENT BRAKE AND REVERSE (IBR)
Exclusive to Sea-Doo. Stop your watercraft with the squeeze of a lever—for more safety and effortless docking.

 Custom cover, removable dry storage bag, safety kit and exclusive colouration. Plus, depth finder and speed ties, glove box organizer and high-performance VTS.

GTR 215

RXT 260 RS

RXT-X aS 260 RS

RXP-X 260 RS

PERFORMANCE

Because maximum thrills on the open water come from every last drop of capability you can squeeze from a watercraft. These are the high-horsepower rides that redefine speed, handling and performance. And create advantages you can use to finish ahead of the rest. Like James Bushell did in riding a Sea-Doo watercraft to four consecutive IJSBA world championships. Whether it's open water or navigating buoys, these watercraft let you harness superior handling and acceleration.

GTR 215 (left) and RXT-X 260 RS (right) shown

HIGH-PERFORMANCE VTS

For adjusting the attitude of the watercraft based on riding conditions and for quick access.

FRONT STORAGE COMPARTMENT

Plenty of storage for stowing away your gear.

GTR 215

NIMBLE PERFORMANCE. PEAK VALUE.

It's the best value of any performance watercraft package. And it comes with a supercharged engine that not only offers more power than the Yamaha VXR and VXS,¹ it also gives you more versatility than the others. That's because it can be tuned easily with aftermarket accessories.

¹Source: Air Resource Board website.

INTELLIGENT BRAKE AND REVERSE (IBR)

Exclusive to Sea-Doo. Stop your watercraft with the squeeze of a lever—for more control and effortless docking.

SEA-DOO RIDING BOOTS AND AMPHIBIOUS RIDING GOGGLES

High-cut neoprene boots keep out rocks and gravel yet remain comfortable and include arch support. The strong, lightweight goggles float on water and are designed to conform to your face and offer 100% UV protection.

DRIVING CENTER
26-function digital information center featuring sport/touring mode, cruise control and ECO mode.

INTELLIGENT BRAKE AND REVERSE (IBR)
Exclusive to Sea-Doo. Stop your watercraft with the squeeze of a lever—for more safety and effortless docking.

HIGH-OUTPUT ENGINE
Provides reliable, ultra-high performance in salt and fresh water, giving you more power and efficiency.

RXT 260 RS

ITC / IBR / S³ / CLCS / ECO

SUPERIOR PERFORMANCE MEETS INSTANT ACCELERATION.

Includes all the high-performance essentials of higher-priced models at a more accessible price. Go from zero to 48 km/h [30 mph] in 1.7 seconds¹. And the stepped S³ Hull means you'll stay glued to the water. It's calibrated for pure performance riding.

¹Based on BRP internal testing.

TILT STEERING
Fit it to your personal riding preference, so rider ergonomics work for you on the water.

OPTIONAL FORCE PULLOVER PFD AND MEN'S X-TEAM NEOPRENE RIDING JACKET
The PFD is cut with large arm holes and has a neoprene outer shell and lining with soft foam inserts for maximum comfort. The versatile riding jacket includes front pockets and a plush-lined hood; it can be worn over a PFD or separately.

RXT-X aS 260 RS model shown

EXCLUSIVE X-PACKAGE
X-Gauge with speedometer, lap timer, boost indicator, High-performance VTS, X-Seat and X-Steering™ with Adjustable Ergonomic Steering (A.E.S.™).

BOW STABILIZER¹
Provides lateral stability in rough water conditions, plus anti-dive to reduce bow diving

HIGH-PERFORMANCE ADJUSTABLE SUSPENSION¹
Using superior-grade, high-performance shocks made by FOX, with full preload and compression manual adjustability

RXT-X 260 RS / RXT-X aS 260 RS

ITC | IBR | aS | S³ | CLCS | ECO

THE ULTIMATE IN OFFSHORE PERFORMANCE.

Large bodies of water won't know what hit them. These muscular performance watercraft deliver size, speed, strength and stability in the roughest conditions. The Sea-Doo RXT-X aS 260 RS adds a fully adjustable suspension, so you can further customize your aggressive ride.

¹RXT-X aS 260 RS model only.

ADJUSTABLE TRIM TABS¹
Designed to fine-tune the attitude of the watercraft and provide better parallelism to the water. Five distinct positions provide ample adjustment range to cover all water conditions

ADJUSTABLE REAR SPONSONS
Improve lateral stability. Three-position adjustable for your skill level and riding environment.

T³ HULL

Innovative, multistaged design with extreme hard chines in the back and soft chines in the front. Allows for more precise cornering, enhances lean-in, cuts water and tracks better; extremely responsive.

ADJUSTABLE REAR SPONSONS

An efficient design that improves lateral stability. Three-position adjustable for your skill level and riding environment.

ADJUSTABLE ERGONOMIC STEERING (A.E.S.)

Fully adjustable handlebars to customize your riding experience.

RXP-X 260 RS

THE ULTIMATE IN POWER AND CONTROL.

It pushes the limits of what's possible in race riding. Through speed, agility, power, sharp handling, precise cornering and innovative design. And its striking new red colour helps it stand apart from the rest. That's because its main purpose is to give you every possible advantage.

ERGOLOCK SYSTEM

A narrow racing seat, specially angled footwells and Adjustable Ergonomic Steering (A.E.S.) allow you and the machine to become one. With your lower body locked in, you're in full control of the machine.

TRIM TABS

Designed to fine-tune the attitude of the watercraft and provide better parallelism to the water.

SEA-DOO STAYS WITH YOU

Even when they're off the water, Sea-Doo owners still reap the benefits. Because there's riding, and then there's getting ready for the next chance to ride. Here are just some of the ways you can do more with your Sea-Doo watercraft.

The OnBoard blog

Immerse yourself in the Sea-Doo lifestyle and learn more about every aspect of owning one of these innovative watercraft. From the pre-purchase process to long-term maintenance and care. Access the OnBoard blog at sea-doo.com/onboard.

Get started today

- Take a demo ride and find out what sets Sea-Doo apart: sea-doo.com.
- Check out a dealership or get a price quote. Visit sea-doo.com and look for the links at the top of the page.

Follow Sea-Doo on your favourite social networks

There's always news to share about our demo tours, new products and additions to the Sea-Doo lifestyle. Follow us to stay up to date:

© 2013 Bombardier Recreational Products Inc. (BRP). All rights reserved. ™, ® and the BRP logo are trademarks of BRP or its affiliates. Depending on location, products are distributed by BRP European Distribution SA, BRP US Inc., BRP Australia Pty Ltd. or Bombardier Recreational Products Inc. iGTX is a trademark of Castrol Limited used under licence. Because of our ongoing commitment to product quality and innovation, we reserve the right, at any time, to discontinue or change specifications, price, design, features, models or equipment without incurring obligation. Some models depicted may contain accessories or be shown with options which are available at an extra cost from your BRP dealer. Product performance may vary depending on, among other things, general conditions, ambient temperature, altitude, ability and driver/ passenger weight. All product comparisons, industry and market claims refer to new sit-down PWC with 4-stroke engines. Some pictures depicted in this brochure include professional drivers or wakeboarders executing manoeuvres under ideal and/or controlled conditions. Do not attempt any of these or any other risky manoeuvres if they're beyond your level of driving or wakeboarding ability as well as your understanding and respect for the performance of your personal watercraft. Always consult your personal watercraft dealer when selecting a personal watercraft for your particular needs, and carefully read and pay attention to your Operator's Guide, instructional video and the on-product labelling on your personal watercraft. Always drive responsibly and safely. Severe injury can result from ignoring warnings, not following the instructions or improper use of the products. Use common sense and courtesy. Always observe applicable local laws and regulations. Respect the right of way and keep a safe distance from other recreationists and/or bystanders. Always wear the appropriate protective clothing as dictated by the circumstances, including, but not limited to, the weather, riding conditions and age and abilities of the occupants. Always wear the appropriate personal flotation device and buoyancy aids. All riders should also always wear wetsuits and/or neoprene bottoms to prevent injuries that may be caused by the personal watercraft's jet thrust – remember that normal swimwear does not provide the same level of protection. Don't operate your personal watercraft or boat under the influence of drugs or alcohol. Always maintain .9 metres (three feet) of water under the hull; avoid ingestion of pebbles, rocks and debris into impeller. By being a member of these important industry associations, we recognise and support their efforts in sharing the responsibility of promoting the growth of our sport. Sea-Doo riders know that riding responsibly and safely is always more fun. Smart Sea-Doo riders wear appropriate protective clothing and never drink and ride. Always ride keeping a substantial distance between yourself and others. Every Sea-Doo watercraft comes with a safety/instructional video and an Operator's Guide as standard equipment.

THE WORLD IS OUR PLAYGROUND

Nothing is more valuable than your playtime. That is why BRP is dedicated to continually finding new and better ways to help you enjoy your favourite powersports. From snow to water to both on and off-road fun, our passion for adventure fuels the innovations that result in the ultimate powersports experience for our customers. We value

the land and water we play on and are committed to protecting it. Our desire to thrill is paired with an emphasis on rider responsibility, placing personal safety above all else. So that each outing can be the most enjoyable, memorable and thrilling experience possible. Because your free time should always be your best time.
